

Year 2 – Yearly Overview

| | Wk 1 | Wk 2 | Wk 3 | Wk 4 | Wk 5 | Wk 6 | Wk 7 | Wk 8 | Wk 9 | Wk 10 | Wk 11 | Wk 12 | Wk 13 | Wk 14 | Wk 15 |
|--------|------------------------|------|------|--|------|----------------------|------|---|------|--|----------------|------------------------|-------|-------|-------|
| Autumn | Number: Place Value | | | Number: Addition and Subtraction | | | | Measurement: Money | | Number: Multiplication and Division | | | | | |
| Spring | Number: Fractions | | | Geometry: Shape | | Measurement: Time | | Measurement: Length and Height | | Number: 4 operations | | SATS/ Consolidation | | | |
| Summer | Position and direction | | | Problem solving and efficient methods | | Statistics | | Measurement: Mass, Capacity and Temperature | | | Investigations | | | | |

| Block | Objective |
|------------------------------------|--|
| Place Value | <ul style="list-style-type: none"> Count in steps of 2, 3 and 5 from 0 and in tens from any number forward/backwards. Recognise the place value of each digit in a two digit number (ten, ones) Identify, represent and estimate numbers to 100 using different representations including the number line. Compare and order numbers from 0 up to 100; use <, > and = signs. Read and write numbers to at least 100 in numerals and words. Use place value and number facts to solve problems. |
| Addition and Subtraction | <ul style="list-style-type: none"> Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100. Show that the addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot. Add and subtract numbers using concrete objects, pictorial representations, and mentally, including: a two digit number and ones; a two digit number and tens; two two digit numbers; adding three one digit numbers. Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems. Solve problems with addition and subtraction: using concrete objects and pictorial representations, including those involving numbers, quantities and measures; applying their increasing knowledge of mental and written methods. |
| Money | <ul style="list-style-type: none"> Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value. Find different combinations of coins that equal the same amounts of money. Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change. |
| Multiplication and Division | <ul style="list-style-type: none"> Recall and use multiplication and division facts for the 2, 5 and 10 times tables, including recognising odd and even numbers. Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (x), division (÷) and equals (=) sign. Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods and multiplication and division facts, including problems in contexts. Show that the multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot. To recognise the use of the inverse relationship between multiplication and division in calculations. |
| Fractions | <ul style="list-style-type: none"> To recognise, find, name and write fractions $\frac{1}{3}$, $\frac{1}{4}$, $\frac{2}{4}$ and $\frac{3}{4}$ of a length, shape, set of objects or quantity. To write simple fractions for example, $\frac{1}{2}$ of $6 = 3$ and recognise the equivalence of two quarters and one half. |
| Geometry: Shape | <ul style="list-style-type: none"> Identify and describe the properties of 2D shapes, including the number of sides and line symmetry in a vertical line. Identify and describe the properties of 3D shapes, including the number of edges, vertices and faces. Identify 2D shapes on the surface of 3D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]. Compare and sort common 2D and 3D shapes and everyday objects. Order and arrange combinations of mathematical objects in patterns and sequences. |
| Measurement: Time | <ul style="list-style-type: none"> To compare and sequence intervals of time. To tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times. To know the number of minutes in a hour and the number of hours in a day. |

| | |
|--|--|
| Measurement: Length and Height | <ul style="list-style-type: none"> Choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm) to the nearest appropriate unit, using rulers and scales. Compare and order length and height and record the results using $>$, $<$ and $=$. |
| 4 operations | <ul style="list-style-type: none"> See addition, subtraction, multiplication and division. |
| Position and direction | <ul style="list-style-type: none"> Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise). |
| Statistics | <ul style="list-style-type: none"> Interpret and construct simple pictograms, tally charts, block diagrams and simple tables. Ask+ answer simple questions by counting the number of objects in each category and sorting the categories by quantity. Ask and answer questions about totalling and comparing categorical data. |
| Measurement: Mass, capacity and temperature | <p>Capacity, mass and temperature:</p> <ul style="list-style-type: none"> Choose and use appropriate standard units to estimate and measure capacity (litres/ml), mass (kg,g) and temperature ($^{\circ}\text{C}$) to the nearest appropriate unit, using thermometers, scales and measuring vessels. Compare and order volume/capacity, mass and temperature and record the results using $>$, $<$ and $=$. |
